

Dear Friends,

For the first time in Hungary we are organizing the IGP FH Carpathian Cup that is an international invitational competition between 8-10th of November 2019.

We are planning it to be a tradition what would be held every year at this time.

Regarding the wandering cup, the team that wins 3 times in a row can keep the wandering cup for good. From the teams with the two highest scores are counted in the team race.

Also individual competitors will be awarded. Each country can register 3+1 competitors (if the number of competitors is more than 3+1 we will let you know). We kindly ask you to register with then maximum number of competitors to raise the Carpathian Cup to an international level.

We also would like raise the standard of this event to be similar to a European and World Championship because every year there is only one international competition so this is why our team has decided to organize the Carpathian Cup from year to year.

We kindly ask you to help us raise the standard of this event by registering more countries.

Our plan for the year 2020 is to organize an IGP FH European Championship in this area and also, if everything goes fine in 2021 maybe an IGP FH World Cup as well.

A few words about the event's location: Kincsem Lovaspark, Tápiószentmárton, Hungary. There are apartments, with 2-4 bed rooms suitable for 180 guests. So every competitor could be in one place that

would create a really good race and great mood.

About the tracking area: at least ~30km around Kincsem Park. It would be grass/plow/pasture.

Registration deadline for each country: 10th of September 2019

Registration deadline for competitors/country: 8th of October 2019

We would like to ask you to keep the timing and deadlines so we can prepare well with the organizations.

Detailed information will be available on www.nyomkoveto-kutyasok-se.hu website and also on Caniva.
